

Enrolment now open!

Talk with Tales for Children (TWiTCH) book sharing programme

The TWiTCH programme is a free CPD opportunity for practitioners in Early Years settings to support children's language and communication skills through book sharing.

- Settings who take part **will receive ongoing specialist support** from our expert coaches and **compensation of up to £1,000 for taking part**
- Start date **September 2026 - July 2027**
- TWiTCH supports **communication and enjoyment of books**. It helps children **grow in confidence** and **supports GLD**. It uses specially **designed resources** and fits into **existing storytime routines**.

“The difference in the children has been incredible! They are confident, more expressive and more connected to each other. Some who barely spoke at the start are now telling stories, using new words, and really listening to each other.”
