

Request for 'Let's Get Talking' sessions

Let's Get Talking is a parent and child interaction group designed by Speech and Language Therapists and based around the '5 Golden Rules of Communication'. The 6 sessions are currently delivered to parents digitally through Microsoft Teams.

They are appropriate for the families of children who have been identified from the [Bolton Early Years Integrated Communication and Language Pathway](#) as needing '[Extra Help](#)' through a WellComm screen, ASQ or through EYFS tracking.

Please discuss, with the family, the reason for the referral and commitment of the 6 sessions before sending the form into the Early Years Communication and Language Development Service (EYCLDS).

Has the child already been referred to Speech and Language for support?

Yes* or No: (Please highlight)

*If yes, then 'Let's Get Talking' is not suitable for this child.

N.B. If you have a child presenting with more significant communication and language delay, please contact the EYCLDS by telephone: 01204 338349/338182 for support with regards to referring the child to the Speech and Language Team.
